

Specialized Glass Products

Glass plays a unique and important role in building design and the environment. It affects design, appearance, thermal performance and occupant comfort. The selection of the right glass is a crucial component of the design process.

Fully Framed, exposed edges or Frameless

What we do for you

- ☆ We consult with you on every design to make sure you get exactly the item you require.
- ☆ Prompt and friendly service
- ☆ High standard of workmanship
- ☆ All glass work to Australian Standards AS1288
- ☆ Pool Fences to AS1926.1—1993

Designed to withstand the elements, a frameless pool fence is made from 12mm toughened Grade A safety glass and is custom made to suit your needs.
